ineo+ 2060L

- > Colour SRA3+
digital press
- > Up to 3,380
pages per hour

Features that make all the difference!

The ineo+ 2060L device target small to midsize commercial printers as well as in-house print rooms and Central Reprographic Departments (CRDs). As entry-level printing system, it offers outstanding new features including scan & print to/from USB Flash, a dual colour highspeed scanner, and the possibility to manage print jobs directly from the operating panel. CRDs will find it easy to adapt to changing document workflows in the company, enhance their overall productivity, and to extend their range of products and services by offering new, sophisticated print products.

Choose DEVELOP

Production printing systems from DEVELOP help you be successful in digital printing. That's because they offer a wide choice of unique proprietary technologies that together ensure high-definition images as the basis for top-quality printouts. Depending on their chief areas of application, the different digital production systems feature innovative imaging and media technologies in varying combinations. All ineo production printing devices, whether colour or monochrome, offer an image quality that is truly consistent from the first to the very last page, and from one print job to another. And the wide range of optional functions these systems offer gives you the opportunity to broaden your portfolio and generate new business.
